SMARTDIGIT CATALOGUES

See our catalogs of “accessories” and “supports” where you will find the widest assortment of designed items specifically for solum newton electronic labels.

ACCESSORIES

In this catalog you will find the widest assortment of ACCESSORIES compatible with the supports and boxes designed for the “NEWTON ESL SOLUM”.

These accessories will allow you, among other things, to vary the height and inclination when implanting your labels, fasten them on wooden, metal or glass shelves, fix them in baskets, boxes or on edges of any thickness, and hang them on tubes and rods, among others. Applications. For large format labels, you can hang them on suspended profiles, place them on telescopic tubes or fix them with magnets on metal surfaces.

The perfect combination of accessories with injection parts guarantees that there will be no product in your store where you cannot mark its price with SOLUM electronic labels.

If the accessory you need is not in this chapter, please consult us and we will develop it in a short space of time.

SUPPORTS

In this catalog you will find the widest assortment of supports designed specifically for the “NEWTON ESL SOLUM”.

All holders are specifically designed for your application with each electronic tag model.

Most have inserts that, in combination with our accessories, allow each label model to be displayed in different positions to adapt to any type of furniture and surface, adapting to any situation that you need in your store.

In cases where these supports come into contact with food, the materials with which they have been manufactured are special for food use.

If you do not find the support you need, contact us and we will develop it in the shortest possible time.

INDEX

EXTRUSION PROFILES
FOR NEWTON
ELECTRONIC LABELS

In this catalog you will find the widest assortment of profiles for the different types of shelves on the market.

If the profile you need is not in this catalog, we can develop it in a short period of time.

We keep a permanent stock of all referenced models in 985 and 1315 mm lengths and in transparent and black colors.

All our profiles are one-piece, that is, they are inserted directly into the front of the shelving without the need for assemblies or other manipulations.

To facilitate the search for the right profile for the shelf model in your store, this catalog has been segmented according to the types of shelves, the special METRO / MAKRO range, accessories for profiles and Stripe LCD.
